

Decoding Equifax Error Codes

Error codes are easy to find on a credit bureau if you know where to look. Once you find the error number, you can look-up the error description in Expert eLearning and correct it on your application.

Here is some of what you can find on a Credit Bureau with an error. In this case our error is **306**.

You can see a full list of the error code in the Credit Bureau Reports chapter in the Expert online Help.

The screenshot shows the 'Equifax Error Codes' page within the 'Credit Bureau Reports' chapter of the Expert online Help. The left sidebar includes links for 'Welcome', 'Working in Expert', 'Opening an Application', 'Creating an Application', 'Scenario Builder', 'Tasks', 'Credit Bureau Reports' (which is currently selected), and 'Participants'. The right panel displays the 'Equifax Error Codes' content, with a note that it links to the Equifax public site for descriptions. The URL in the browser is 'Home > Credit Bureau Reports > Equifax Error Codes'.
